Addendum No. 01

RFP	No. 2026-117, Claims Platform Modernization and Application Support
Addendum issue date	Tuesday, October 13, 2026
Issued by	Dana Whitfield, Senior Sourcing Manager, IT Services
Acknowledgment	Required in the Bidder's cover letter (RFP Section 6, item 1)

This Addendum No. 01 modifies RFP No. 2026-117 as set out below. Following the virtual pre-proposal conference on October 13, 2026 and review by Acme's executive steering committee, Acme is extending the proposal schedule and adding two Mandatory requirements. Except as modified by this addendum, all terms of the RFP remain unchanged. Where this addendum conflicts with the RFP, this addendum governs.

Change 1: Revised timeline (RFP Section 8)

The proposal due date is extended by one week, and the dates that follow it are revised as shown below. All times are Eastern Time.

Milestone	Original date	Revised date
Final bidder questions due	October 23, 2026, 5:00 PM	October 30, 2026, 5:00 PM
Final answers posted	October 30, 2026	November 4, 2026
Proposals due	**November 6, 2026, 3:00 PM**	**November 13, 2026, 3:00 PM**
Shortlist notification	November 20, 2026	December 1, 2026
Oral presentations	December 1 to 3, 2026	December 8 to 10, 2026
Best and final offers due	December 11, 2026	December 16, 2026
Intent to award	December 18, 2026	January 8, 2027
Contract start (target)	February 1, 2027	February 1, 2027 (unchanged)

Change 2: New requirement ST-08, delivery model (RFP Section 5.4)

The following Mandatory requirement is added to Section 5.4, Staffing and delivery requirements.

ID	Requirement	M/D
ST-08	Provide a blended delivery model combining an India-based offshore delivery center with a US-based nearshore delivery center, with at least 25% of Transition Phase effort delivered from US locations (onshore and nearshore combined). Name a US-based Engagement Lead, located within three hours' travel of Hartford, CT, who is the single point of accountability for both phases, and include the Engagement Lead's resume.	M

Bidders must describe the delivery model in proposal Section 6 (Team and delivery model), including the locations of each delivery center, the planned effort by location for each phase, and how the model meets requirement SR-03.

Change 3: New requirement TR-11, AI-assisted testing (RFP Section 5.2)

The following Mandatory requirement is added to Section 5.2, Technical, integration, data and testing requirements.

ID	Requirement	M/D
TR-11	Use AI-assisted testing to design, generate and maintain automated regression tests for the Transition Phase and for the twice-yearly Guidewire Cloud release updates in Phase 2. Quantify the expected reduction in regression cycle time. AI tooling must run only in Acme-approved environments, Acme data must not be used to train third-party models, and all AI-generated test assets must be reviewed by a qualified tester before use.	M

Bidders must describe their AI-assisted testing approach in proposal Section 4 (Solution approach), and reflect any associated tooling costs in the price proposal.

Updated requirement count

With this addendum, the RFP contains 44 requirements, of which 31 are Mandatory. Bidders must respond to requirements ST-08 and TR-11 in the compliance matrix.

All other terms and conditions of RFP No. 2026-117 remain unchanged.
